

7900FE Printer Error

Alex Zhernachuk updated January 12, 2012 at 3:56 PM

Questions Addressed:

- What causes the 79.00FE printer error? What causes the 79.00FE printer error?

79.00FE Printer Error

Most black and white HP printers such as the 4000 series and 8100 series use "PostScript emulation" rather than having real Adobe PostScript. Color LaserJet printers use true PostScript, and do not produce the error.

When you see a 79.00FE error, cancel the job causing the error from your computer, turn the printer off and on, and print to one of the Color LaserJet printers.
